

DIAMOND D ABRASIVES
 By **MARTINDALE**
NEW PRODUCT

Regular use of dressing sticks will help achieve maximum performance for your diamond wheels.

Typical applications include cleaning and dressing diamond, CBN and conventional abrasive wheels.

Aluminum Oxide Dressing Sticks

For Dressing & Cleaning Diamond Wheels

How to Choose A Grit

- Choose a stick 1 or 2 grits *finer* than the existing abrasive of your grinding wheel.
- The smaller the grit number, the more aggressive the dressing, which will abrade the surface faster.
